

# 1. Gappy Consecutive Sudoku

**Rules:** Place a number from 1-9 in each empty cell in the grid such that each row, column and marked  $3 \times 3$  box contains each number exactly once. The numbers placed in each outlined region must form a consecutive, non-repeating set, with exactly one number missing in between. The missing number is indicated at the top-left of each region.

## 2. Point to Next Sudoku

**Rules:** Place a number from 1-9 in each empty cell in the grid such that each row, column and marked  $3 \times 3$  box contains each number exactly once. Some arrows are marked in the grid. If a number  $n$  is placed in a cell containing an arrow, then the number  $n+1$  must be placed in a cell pointed at by the arrow.

### 3. Arrow Sudoku

**Rules:** Place a number from 1-9 in each empty cell in the grid such that each row, column and marked  $3 \times 3$  box contains each number exactly once. The number placed in a cell with a circle must be the sum of the numbers placed in cells the adjoining arrow passes through. Numbers may repeat on arrows.

## 4. Tennis Sudoku

**Rules:** Place a number from 1-9 in each empty cell in the grid such that each row, column and marked  $3 \times 3$  box contains each number exactly once. Adjacent cells containing valid scores for a set of tennis are marked with a ball. Adjacent cells with no marking must not contain valid scores. The list of valid scores is: 6-1, 6-2, 6-3, 6-4, 7-5, 7-6, 8-6, 9-7.
